Assignment

COURSE ASSIGNMENT

Your assignment for this course is to design the 3-page website described in the wireframes, along with versions for smaller screens.

You can copy exactly what I do and this will probably be easier for beginners, but I also encourage you to put *your own spin* on things. So experiment with the colors and the typography, try and create a different layout for the pages.

You'll get an awful amount of experience from experimentation, even if the end result is not necessarily the best. That's how we learn — through practice.

With that said, good luck, enjoy the course and I'll see you on the other side 🤓
